PROFILE

Digital Sciences student at ENSEEIHT (N7, Toulouse) following two years of CPGE (INP preparatory classes), combining strong scientific rigor with a passion for software development. Curious, methodical, and analytical, I have consolidated my technical skills through hands-on academic projects and an internship focused on customer support automation, API integration, and conversational AI deployment.

SKILLS

- Dynamism
- Project perseverance
- Intellectual curiosity

- IT & Programming (OCaml, Ada, C/C++, Python)
- Teamwork

EXPERIENCE

INTERN - Laboratory Assistant, 01/2022-02/2022
Institut Pasteur , Les Abymes-Stage

- Collaborated with microbiologists to discover research methods and understand laboratory operations.
- Assisted staff under supervision and performed biological, microbiological, and bacteriological analyses in a controlled environment.
- Conducting biological and microbiological analyses, as well as bacteriological analyses in a contained area.

INTERN - Customer Support Automation & Conversational AI ,05/2026-06/1026
Dommarket , Le Pré-Saint-Gervais

- Designed and integrated conversational chatbots to automate customer support workflows.
- Connected order-tracking APIs and optimized e-commerce operational workflows.
